Product Specifications

Power Supply	
Manufacturer: Dongguan Yiheng Electronics Co., Ltd	
Model: A66A00290200	Average Active Efficiency: >88%
Rated Input: 100-120VAC, 50-60Hz, 4.0A 200-240VAC, 50-60Hz, 2.5A	Efficiency at Low Load (10%): ≥88.21%
Rated Output: 29VDC, 2A, 58W	No-load Power Consumption: ≤ 0.21W

The technical information of standby mode:

Mode	Power consumption (Watts)	The period (Minutes)
Standby	0.21W	1 Min

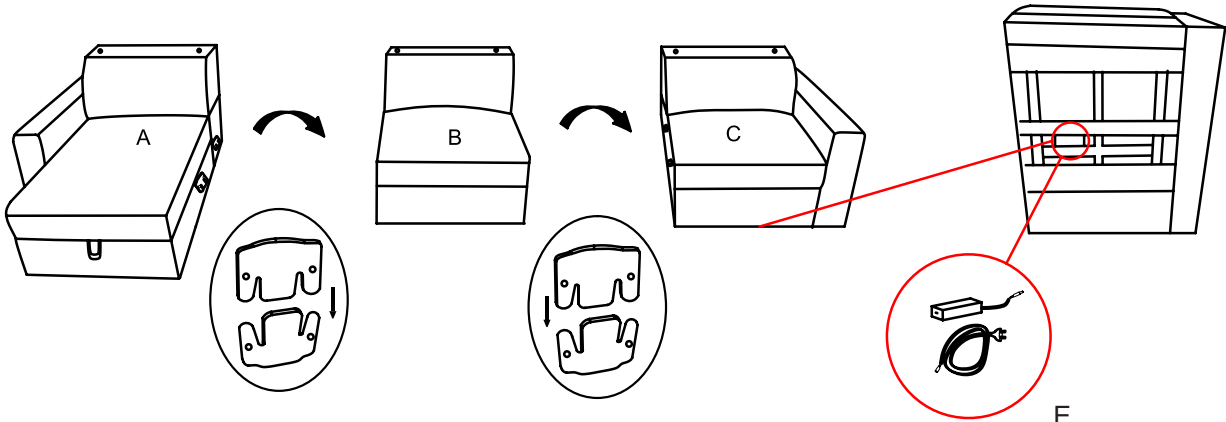

Components List

 A ×1	 B ×1	 C ×1
 D ×3	 E ×1	 F ×3

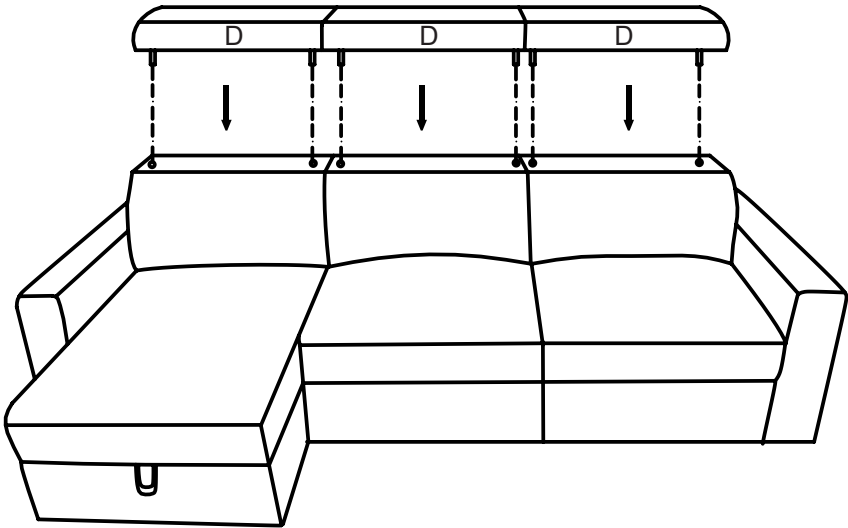

Assembly Instructions

- 1
- First, remove the seat from the packaging and place it in position. Locate the power cord E underneath Seat C.

Align the two metal connectors on the seat with the corresponding connectors on the adjacent seat. Lower the seat into place to securely engage the connectors. Repeat this process from right to left until all seats are connected.

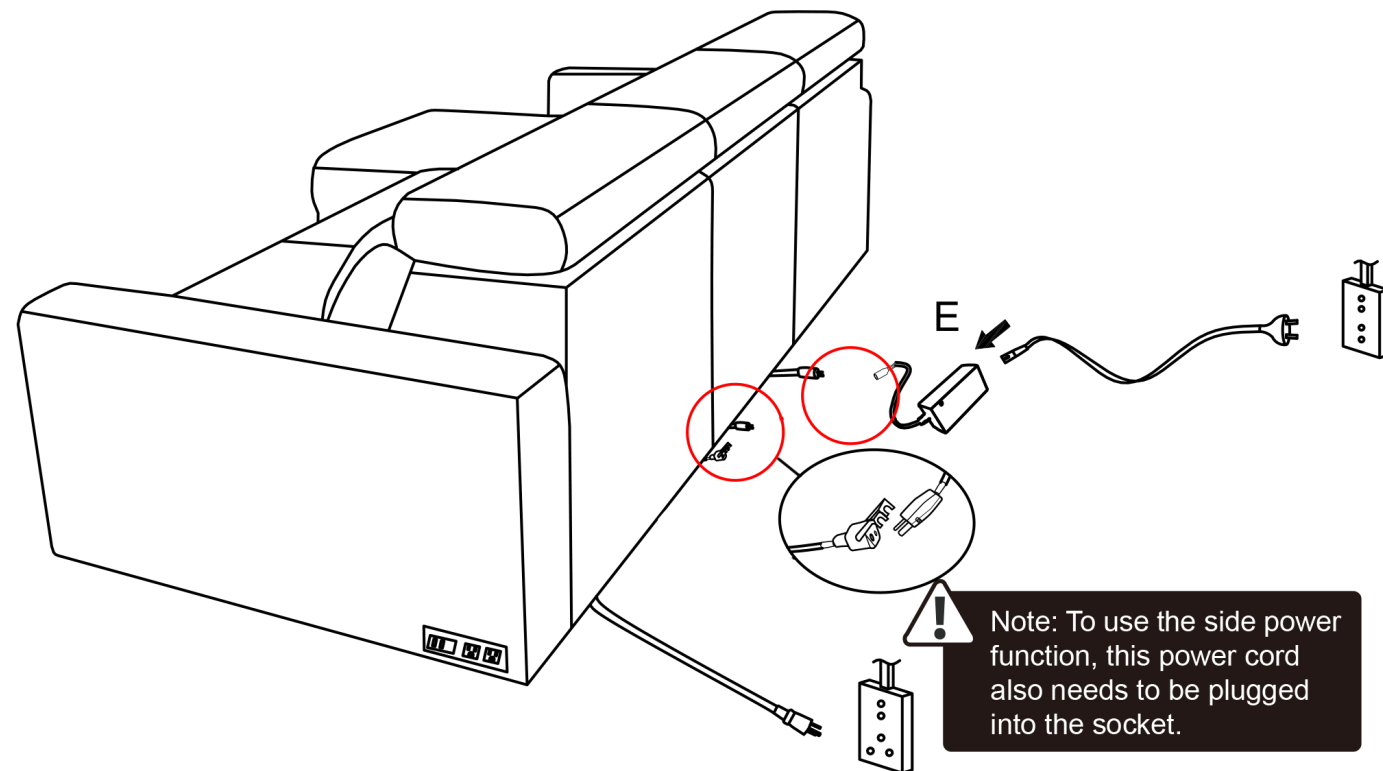

- 2
- Remove the headrest components D and align the raised metal part of the headrest with the holes in the seat, then insert it vertically.

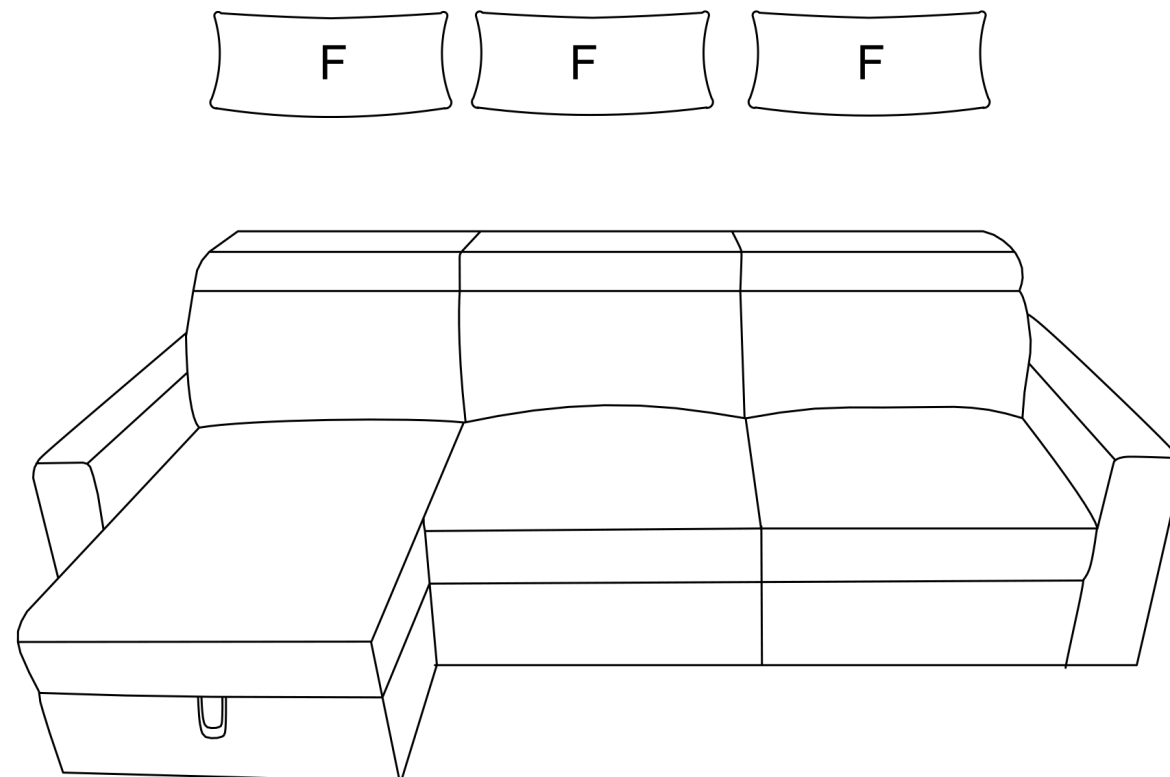

3

First, connect the power cord between the two adjacent seats. Then, take out power cord E and complete the wiring as shown in the diagram. Finally, plug the power cord into the socket.

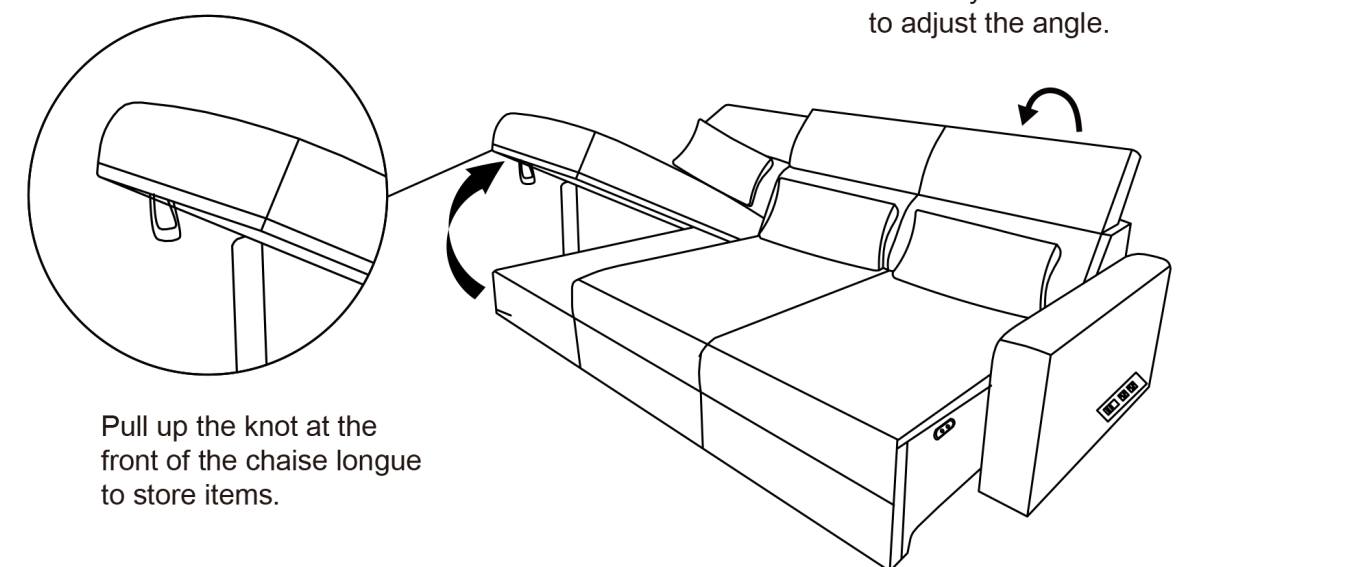

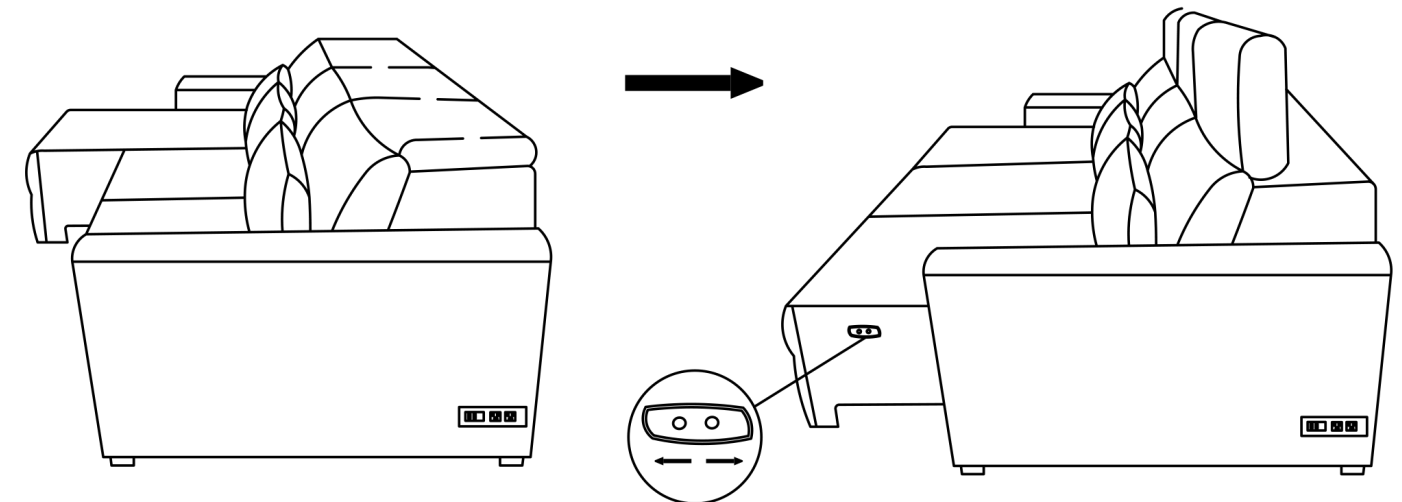

4

Place Pillow F on the seat, installation complete.

Operating Instructions

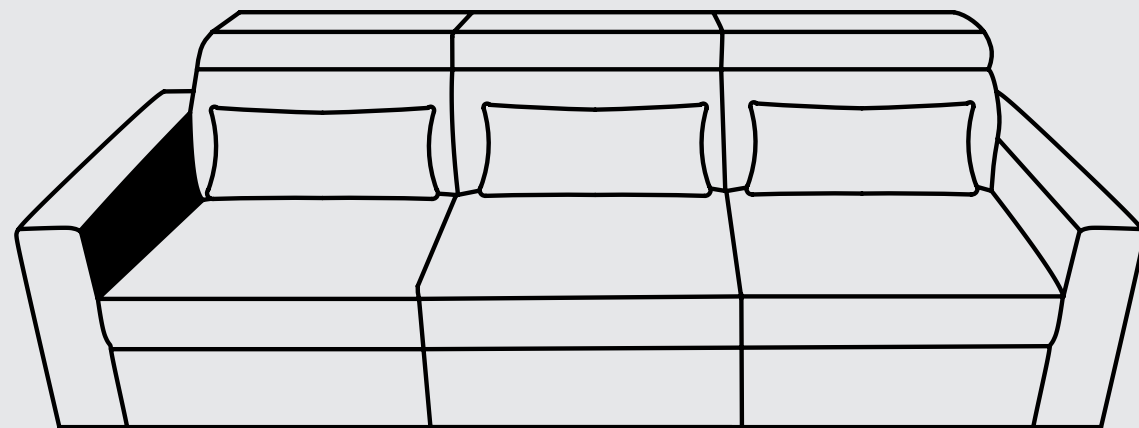

The control button is located on the inner side of each individual sofa. Press ← to start extending the sofa, press any button to stop. Press → to start retracting the sofa, press any button to stop. (One-button start/stop, no need to press and hold.)
