EXPLODED

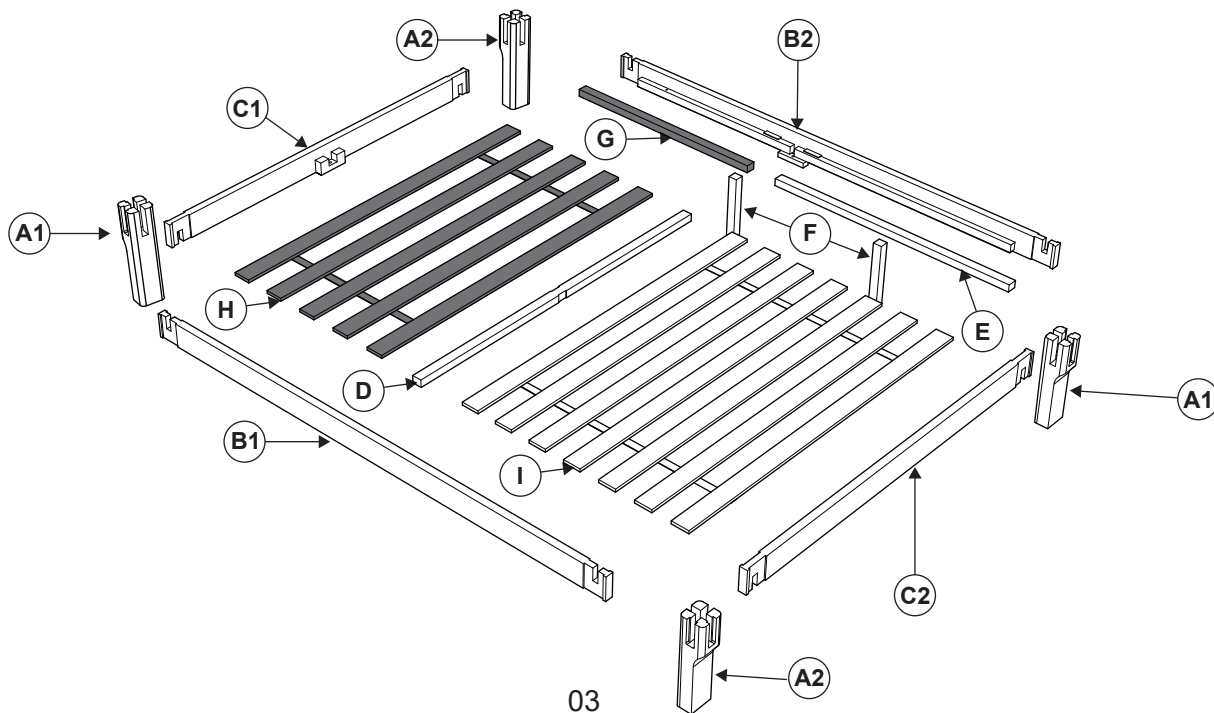

EXPLODED

- If you are installing the adjustable half bed, there is no need to install parts labeled "G" and "H" (highlighted in darker color).
- For instructions on installing the adjustable half bed, please refer to the corresponding installation manual.

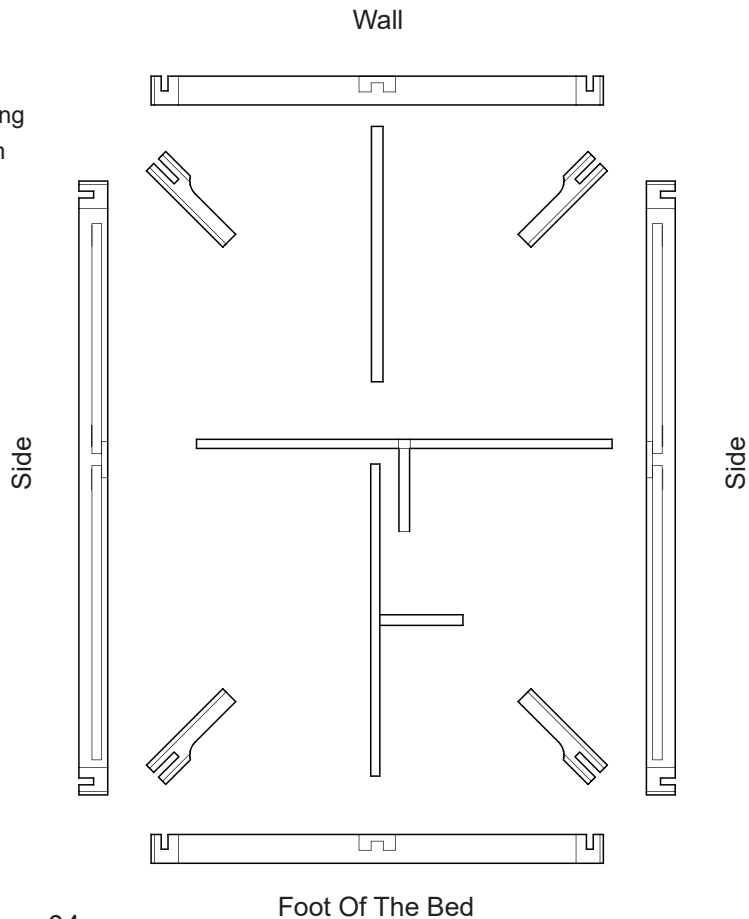

Adjustable Half Bed

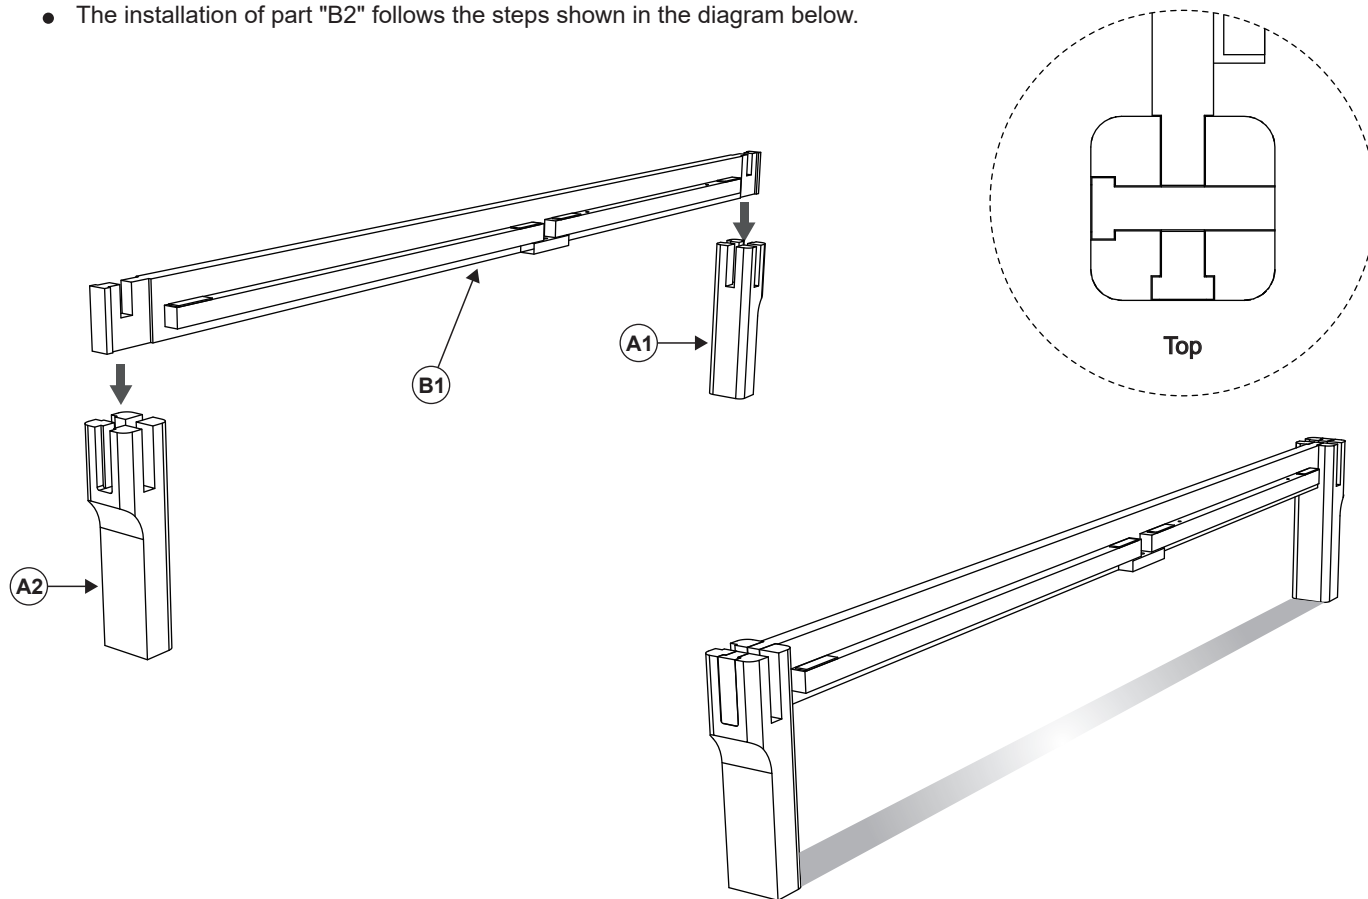

Step 1

- Place the bed frame components where you plan to position the bed.
- Lay the bed frame parts on a paper mat or carpet during assembly to prevent damage to the frame's finish from hard flooring.

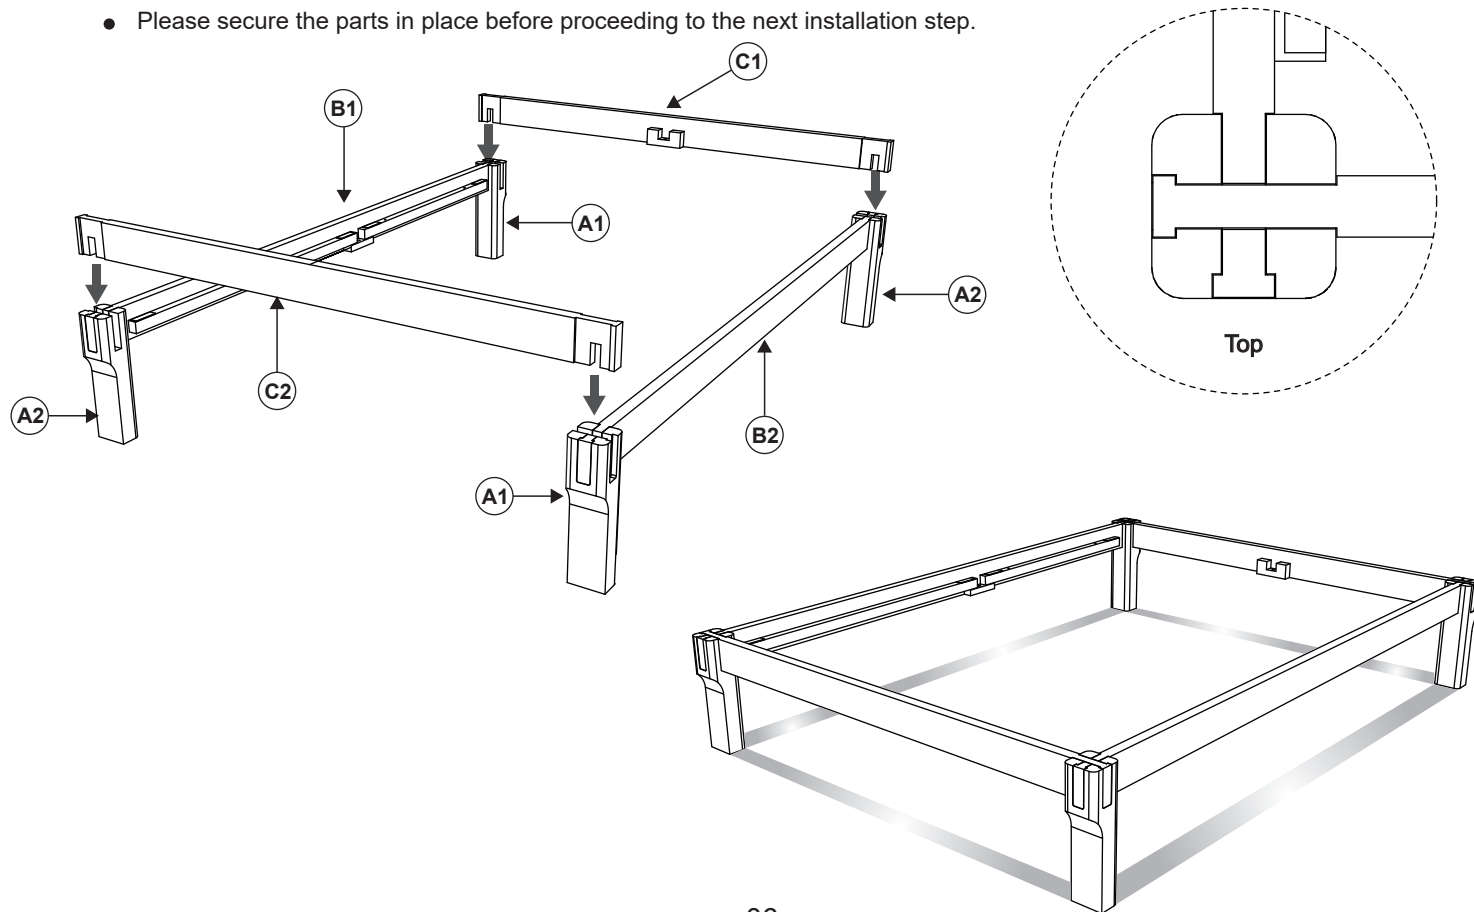

Step 2

- The installation of part "B2" follows the steps shown in the diagram below.

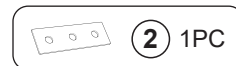

Step 3

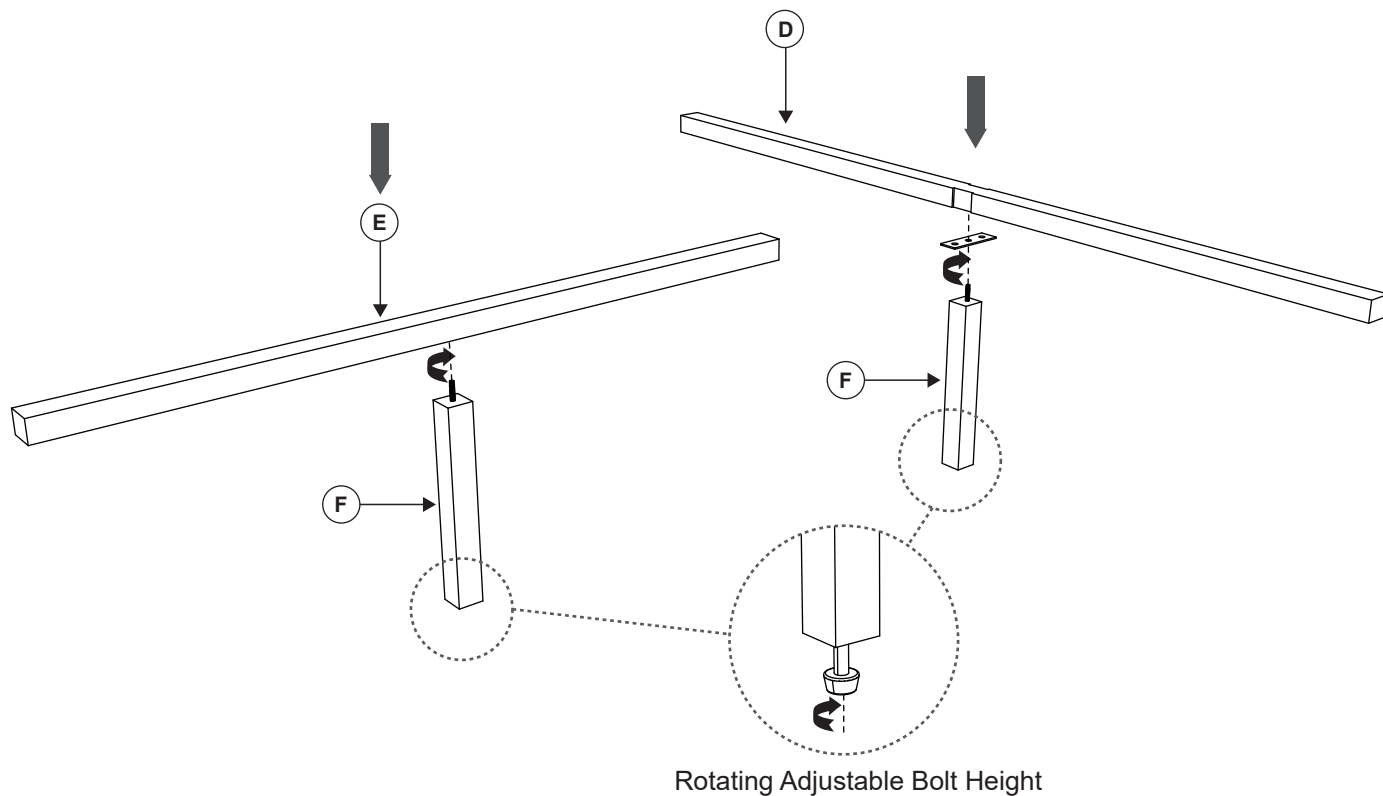

- Please secure the parts in place before proceeding to the next installation step.

Step 4

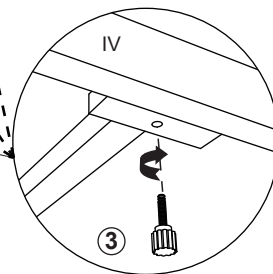

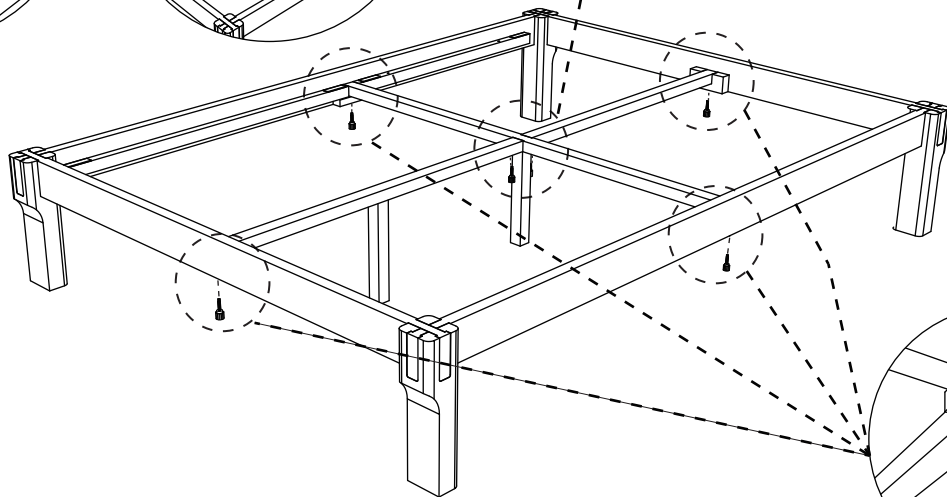

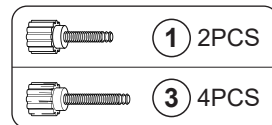

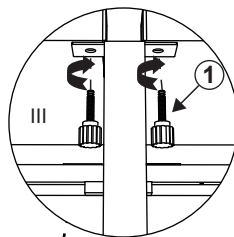

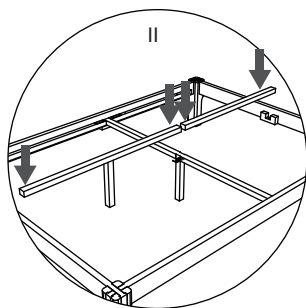

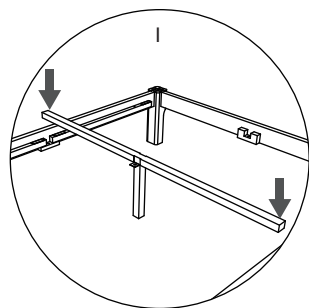

- Please secure the parts in place before proceeding to the next installation step.

Step 5

- Please secure the parts in place before proceeding to the next installation step.

Step 6

- Align the slats with the velcro on the frame and install them.
